

Darlington Pair Amplifier

Product Categories: [Amplifier's](#), [Amplifier's](#), [Electronics](#), [Engineering Equipment](#)

Product Page: <https://www.labappara.com/product/darlington-pair-amplifier/>

Product Description

Darlington Pair Amplifier

The pair amplifier satisfy all parameters which is required by today's technology such as-high speed transmission efficiency, less power consumption and less circuitry to be used pair is used in advanced version of small signal amplifier with additional biasing resistance which improves voltage gain and widening of bandwidth. It also removes poor frequency response of pair amplifier at higher frequency.

Features :

Excellent durability

Smooth functioning

Low maintenance cost
