

Linear IC Trainer

Product Categories: [Bread Board Trainers](#), [Bread Board Trainers](#), [Electronics](#), [Engineering Equipment](#)
Product Page: <https://www.labappara.com/product/linear-ic-trainer/>

Product Description

Linear IC Trainer

Specifications:

Trainer comprises of Power supplies inside the trainer

Power supplies on boards 0-5 V, 250 mA and 0-12 V, 250 mA Variable

12 V/150 mA and 5 V/150 mA Fixed Supplies provided on board

2 Digital Meters are mounted on board one for voltmeter 20 V and other for current 200 mA

2 nos bread board mounted on the board

2 Nos. Variable resistor mounted on the board

Features:

Trainer operated on 230 V, 50 Hz 10%

Supplied with instruction manual

Supplied with sufficient nos of patch cords

Supplied with Computer Lead

Dimensions of the Trainer will be 12" x 10" with Plastic Box Highly shock proof
