### Product Description

#### **PENDULUM BOB AND SPHERES - Physics Equipment**

Set of 6 different metal pendulum bobs used for density in electrical and thermal expansions.

The offered range is manufactured using premium quality raw material and advanced technology in compliance with the international standards.

#### Nature of Metal

- a) Brass
- b) Copper
- c) Aluminum
- d) Lead
- e) Zinc
- f) Iron

#### **Features:**

Long lasting shine

Finely polished

Robustness

**SIZE:-**

12 mm

18 mm

25 mm
