### Product Description

Single Beam UV-VIS Spectrophotometer - Analytical Laboratory Equipment

Range 200-1000 nm with facility for Automatic single beam uv-vis spectrophotometer.

Concentration, % Transmission and absorbency Measurement.

Wavelength resolution 5nm 3 and half digit LCD display With cuvettes a set of 1 pair.

Cover 195 to 1000 nm, 4 Position Cuvette Holder RS232C Computer Interface.

Highly Accurate & Stable High wavelengths Precision Compact & Good Looking Shape.

A versatile, Rugged, Easy to operate and Accurate Instrument to determine

Absorbance, % Transmission and Concentration of Liquids.
