### Product Description

#### **SOLAR FM RADIO - Scientific Laboratory Educational Equipment**

When solar FM radio is placed in sunlight it converts solar energy into electrical energy, which in turn energizes and thus conversion of solar energy into electromechanical energy.

Solar FM Radio

Double super LED torch light

4 bands radio receiver

Solar panel

High sensitivity DSP radio

Rechargeable battery

360 °and ultra long antenna

This is a great introduction into the workings and benefits of solar energy and it is a fun and educational project for the classroom.
