Product Description

Stage Micrometer - Laboratory Equipment

A Stage Micrometer is simply a microscope slide with a finely divided scale marked on the surface. The scale is of a known true length and is used for calibration of optical systems with eyepiece articulate patterns.

Features:

Precision Glass Stage Micrometer Slide

Least Count 10 Microns

Scale of 1 mm divided in 100 Parts

High Contrast Sharp graduated lines

Fine ground Glass

Ideal for Microscope, camera & software Calibration

Comes in protective case
