Product Description

Staining Box - Scientific Laboratory Equipment

Moulded in Polypropylene, this Staining Box helps in staining, fixing, de-staining and handling fragile electrophoresis gels and membranes. Box as well as cover will resist temperatures from -70°C to $+70^{\circ}\text{C}$. The LDPE plug provides leakproof seal and allows easy liquid drainage. A stain box is a discoloration that can be clearly distinguished from the surface, material, or medium it is found upon. They are caused by the chemical or physical interaction of two dissimilar materials.

Material :Polypropylene
