Product Description

Transient Response Of RLC Circuit

Specifications:

On board DC Regulated Power Supply 5 V at 250 mA

On board Square Wave Generator

On Board RL and RC Circuit Provided With Circuit Diagram

Components are mounted behind the panel

Adequate no. Of patch cords stackable from rear both ends 4 mm spring loaded plug length $\frac{1}{2}$ meter

Good quality, reliable terminal/sockets are provided at appropriate places on panel for connections/ observation of waveforms

Trainer is housed in highly shockproof plastic box having size of 12 x 8 inches

Strongly supported by detailed operating instructions manual
