

Verification Of Truth Table Of Logic Gates Using NAND & NOR Gates

Product Categories: [Digital Electronics Lab](#), [Engineering Equipment](#)

Product Page: <https://www.labappara.com/product/verification-of-truth-table-of-logic-gates-using-nand-nor-gates/>

Product Description

Verification Of Truth Table Of Logic Gates Using NAND & NOR Gates

Verification of truth tables of Logic gates using Universal gates (NAND & NOR gates)

Features :

Instrument comprises of DC Regulated Power Supply 5V/150mA, 2 logic 1 & 2 logic 0 inputs are provided on sockets, 2 Red LED output indicators, circuit diagram printed for 4 NAND & 4 NOR gates & their respective ICs placed inside the cabinet & connections brought out at sockets.
