Product Description

Water Solar System Temp. Gauge Bi- Metal Dial Thermometer Horizontal Type (100 mm)

This product is used in various industries to determine temperature

100 mm dial size x12" "2"

SS stem-Aluminum Brass

Range-0 to 1200C*

High quality raw material is used for manufacturing

Manufactured as per the industry standards.

Series of tests are conducted to ensure flawlessness in the product.

Features

Sturdiness

Reliability

Longer service life
