Product Description

Water Solar System Temp. Gauge Bi- Metal Dial Thermometer Horizontal Type (62mm)

This product is used in various industries to determine temperature
62 mm dial size x 12" X 2"

SS Stem- Aluminium

Range-0 to 1200 C.

High quality raw material is used for manufacturing.

Manufactured as per the industry standards.

Series of tests are conducted to ensure flawlessness in the product.

Features

Sturdiness

Reliability

Longer service life
